

VICTOR WANG

Sacramento, CA | (530) 574-7020 | victor.fan.wang@gmail.com | victorwang.info

Driven web developer ready to learn, build, collaborate.

Personal Projects

- An intuitive dictionary browser extension with over 120 average daily users; the extension is being actively maintained and updated
- A React web app deployed on AWS with Ant Design UI, NoSQL database, REST API, user authentication, and social media integration
- A responsive portfolio site featuring React animation and SMS messaging capability
(Sources and live demos available at github.com/vic2019 and victorwang.info)

Qualifications

- A solid grasp of the building blocks of frontend web applications, including modern JavaScript framework and state management
- Foundational knowledge in backend development pertaining to web applications, with a particular interest in cloud-based solutions
- Familiarity with version control and testing tools
- Hard-working and adaptable. I love to code and tackle practical problems!

Education

- | | | |
|--------------------------------------|--------------------|------|
| • Washington University in St. Louis | J.D. | 2018 |
